NEW MANUFACTURED HOUSING ENERGY STAR INCENTIVE PROGRAM

- BRIEF DESCRIPTION:** An ENERGY Star incentive program designed for new manufactured homes that install ENERGY STAR rated heat pumps as their primary heating system.
- PROGRAM AVAILABLE TO:** All purchasers of new Energy Star or Super Good Cents manufactured homes which are sited in the PUD service area.
- HEAT PUMP REQUIREMENT:** Home must use an ENERGY STAR rated heat pump with an efficiency rating of 8.0 HSPF and 13 SEER or higher.
- DUCT SYSTEM REQUIREMENTS:** Must meet good industry standard installation practices and be sealed air tight and fully insulated in the crossover area.
- APPLICATION PROCEDURE:** Obtain application from PUD, complete the form, and, after installation of heat pump is complete, return completed application to Cheri Kerr at Moses Lake PUD office at 312 W Third, Moses Lake.
- INSPECTION:** Each home will be subject to a brief site inspection, by appointment with homeowner, by a PUD representative to verify the heat pump efficiency and system installation.
- INCENTIVE PAYMENT:** Payment will be \$200 per ton of installed heat pump + \$500. Payment will normally go to the homebuyer unless authorized differently, in writing, by homeowner. An additional incentive of \$50 will be paid if a new Energy-Star rated clothes washer with a Modified Energy Factor of 2.0 or higher is installed.
- PAYMENT TIME FRAME:** After site inspection has successfully passed, payment will be made within two to three weeks
- PROGRAM TIME FRAME:** This program is a limited time offer.
- PROGRAM CONTACT:** For additional information contact Cheri Kerr at the local Moses Lake PUD office.

**NEW MANUFACTURED HOME ENERGY STAR INCENTIVE AGREEMENT
 (New Manufactured Homes)**

Home Buyer _____ Home Serial # _____

SITE ADDRESS _____ FACTORY CERTIFICATION Energy Star___ SGC___

CITY, ST, ZIP _____ DEALER _____

TELEPHONE _____ CITY, ST, ZIP _____

I desire to participate in the Grant County PUD Energy Star New Home Incentive Program and agree to the following:

1. I will purchase a new factory certified Energy Star or Super Good Cents home.
2. I will use an ENERGY STAR rated heat pump as my primary heating system with an 8.0 or higher HSPF and 13 SEER or higher cooling efficiency rating.
3. I will allow an inspection of the heat pump installation by PUD-authorized personnel
4. Actual energy savings is unpredictable due to many lifestyle variables. Electrical usage data may be used by the PUD for evaluation purposes and released to the public as long as it is not specifically identified
5. The PUD is not responsible for the proper selection, installation, and operation of the heat pump.
6. All ductwork outside of the conditioned space, including the crossover duct, must meet good industry installation practices and be sealed air-tight at connections and fully insulated
7. This program is of limited duration and may terminate at any time with no new agreements offered after that date.
8. The Current dollar incentive for this program will be \$200 per ton of installed heat pump + \$500.
9. If a new Energy Star rated Clothes washer with a Modified Energy Factor of 2.0 or higher is installed an additional \$50 incentive will be paid.
