

**GRANT COUNTY PUBLIC UTILITY DISTRICT  
NEW MANUFACTURED HOUSING ENERGY STAR INCENTIVE PROGRAM**

- BRIEF DESCRIPTION:** An incentive program designed for new electrically heated manufactured homes that are constructed to “Energy Star” specifications.
- PROGRAM AVAILABLE TO:** All purchasers of new electrically heated Energy Star manufactured homes which are sited in the PUD service area.
- HEAT PUMP REQUIREMENT:** Home must use an ENERGY STAR rated heat pump with an efficiency rating of 8.0 HSPF and 13 SEER or higher.
- DUCT SYSTEM REQUIREMENTS:** Must meet good industry standard installation practices and be sealed air tight and fully insulated in the crossover area.
- APPLICATION PROCEDURE:** Obtain application from PUD, complete the form, and submit manufacturers Energy Star **certificate of compliance**. After installation of heat pump is complete, return completed application to Kim B. at Moses Lake PUD office at 312 W Third, Moses Lake.
- INSPECTION:** Each home will be subject to a brief site inspection, by appointment with homeowner, by a PUD representative to verify the heat pump efficiency and system installation.
- INCENTIVE PAYMENT:** I understand Grant County PUD will pay a \$1,150.00 incentive on an electrically heated Energy Star Certified Manufactured Home and will further incent \$200.00 per ton of qualifying Energy Star Heat Pump.(8.0 or higher HSPF and 13 or higher SEER). An additional incentive of \$70 will be paid if a new Energy-Star rated clothes washer is installed at time of PUD inspection that has a Modified Energy Factor of 1.72 or higher.
- PAYMENT TIME FRAME:** After site inspection has successfully passed, all completed applications turned in by the third Wednesday of each month will be processed the last week of the rebate month and checks will normally be mailed the first week of the following month.
- PROGRAM CONTACT:** For additional information contact Kim at the local Moses Lake PUD office.
